CARLING LAKE

KENORA DISTRICT ONTARIO, CANADA

Angling Regulations & Notes:
Carling Lake is managed by Slate Falls Outposts as a high quality limited kill fishery. We only consume or keep walleyes under 18 inches and northern pike under 27 inches.
Limit on a conservation licence is 2 walleyes and 2 northern pike (no over-sized fish)
Lake Trout is a zero limit regardless of licence.
Any frozen fish taken home must be flat with skin on it and one fish per bag. Unfrozen fish just needs to have skin on it.
NOTEWORTHY: Your possession limit includes all fish under your care and control. i.e., cleaned for dinner, ready for a trip back home, laid to the dock or in the frying pan.
Two fish means two fish.
FEELING BARBLES: It is not the law on this lake but is definitely the way to go, making it easy to release your fish and yourself should you be that type of fisherman that needs an inside advantage. Thank bartles!
